Making Dream Surfaces Attainable

CARE & MAINTENANCE

Our stainless steel sinks are made of 304 series, 18/10 chrome/nickel steel. This non-magnetic, non-porous material is very hygienic, extremely durable, and rust free. Our stainless steel sinks maintain lustrous finish that is resistant to water stains and calcium deposits.

As with any household items, stainless steel sinks require periodic cleaning to maintain the original beauty.

Care & Cleaning

- Rinse often and thoroughly
- Wipe sink dry with a soft, clean cloth. Depending on water hardness, spotting and mineral deposits will occur with air drying
- Feel free to use mild stainless steel cleaner to aid in the cleaning process

SINK CARE AND MAINTENANCE
